

Contestants Are Given Another Menu Puzzle

Mrs. Fenton has a nice little story wherewith to introduce her puzzle. It goes something like this: Some travelers gathered from the north and the south and the east and the west were journeying through a pleasant country, when they chanced upon a certain noisily, the name of which suggests Christmas, good cheer, and festivity. Looking over the assemblage of guests the delightful hostess, realizing that his menu card would have to be altered a bit to give everybody a chance to enjoy some dish native to his special section, retired for a few moments to think it all over. When he came back he handed out the card, and thereon you may find, if you please, just what simple, everyday good things he provided. Also, if you please, you may find the name of the roadhouse and what he called his menu card, and in what manner he served the food. I am certain you will enjoy the feast, and just as sure as can be am I that you will find something just like mother made, no matter whether you are a down East Yankee, or a Southern or a Westerner, or a man from the frozen North.

Mrs. Fenton was much more generous than I, for she arranged nearly forty different dishes. I, being of an economic bent, scooped down on a few, and put them by for another fete day. Not so long ago somebody suggested that the puzzles, while delightfully interesting, were a trifle too long for busy folk to wrestle with, so acting on this hint I reduced your chance for dyspepsia.

The king, lazy summer days are over, and once again we are all busy persons, not too busy to eliminate the weekly puzzle. I trust, but every good thing put to them by their fingers.

When a body is in school, it is a pretty difficult thing to get in some study time and some play time and

Daily Fashion Talk

It does not much matter what time of the year you present the average small boy with a soldier suit. He will be made happy at the sight of it at any time, and his interest in the military may prove a blessing to the woman whose pocketbook may not stand the strain of keeping her laddie as presentable as his playmates from homes where money has not so much significance. Evolved of khaki, the little uniform may be had at small expense, especially if one has the skill to make it at home. Neatness and attention to detail are the two prime requisites for the proper manufacture of the garment pictured. Cadet gray cloth or military blue material may be used if one wishes to have a more elaborate outfit. This is a May Manton Pattern No. 642, and may be had at Goldenberg's.

FRANCES CARROLL.

Monograms on All Apparel Is the Latest Fad

You are not in it this season unless you are monogrammed. It is not enough to have your household linen and toilet accessories, not to speak of your stationery, made distinctive with your initials, but they must go on your clothing as well.

Handkerchiefs, night dresses, corset covers, chemises, parasols, and stockings, all sport a monogram of some sort. One of the latest touches of all is to have one worked on the sleeve of your blouse, about an inch and a half above the elbow.

Just what kind of monogram to use depends upon the taste of the wearer. As a rule they differ with different garments, but some women have the same kind of monogram for all their wearing apparel, merely varying it by size, method of working, or by design.

As this may be beyond the skill of most amateur embroiderers, it is well to have the same monogram designed in three or four different sizes. Tiny for handkerchiefs, a size or two larger for corset covers and night dresses, still larger for side bags, sleeves, and the linen-covered belt buckle, or plaque, and the rest of all for a panel of parasol.

If desired, these different sizes can be applied to household marking as well. One Design Used Repeatedly. Insist upon having a perforated design of each size. With a stamping outfit, which can be purchased for about 25 cents, the one design can be used repeatedly. These are less troublesome to apply than transfer patterns, and do not wear out as soon.

In ordering a monogram, especially when done by mail, it is wise to print the letters to avoid possibility of mistake. The style of lettering depends upon individual taste. When to be used on all one's clothing, the monogram should not be too ornate, as you more quickly tire of it. Block or script letters are always in vogue.

Unless one is a skilled embroiderer avoid having a monogram that is complicated in arrangement, even though the letters themselves are simple. A better effect with less work can be had with interlacing letters placed either side by side, colors select a cotton, or running in a slightly diagonal fashion. For the last Japanese lettering is effective and easy to do.

It must be remembered in working monograms on clothing that it must underlie what it looks as firm and smooth after washing as it does before. Many workers get a fairly good effect before water is applied, but the lettering spreads or flattens later.

Be Sure to Get The Monogram Straight. If the shirt waist is to be stamped away from home, try it on first and with a thread mark the top of the sleeve. Otherwise you will be horrified after working an elaborate monogram to find it crooked.

Do not have the lettering too large. Two inches and a half for the whole sleeve, an inch and a half for the cuff, and in such a way that it faces the cuff and comes on the top of the arm when the sleeve is on.

Very pretty is the diagonal lettering with the monogram slanting toward the outside of the arm and toward the cuff.

These monograms are often done in satin stitch, heavily padded and worked so that they stand up well. To get the best raised effect put the needle in well under the padding, and bring it out on the other side within the size. The design is either made with the letters side by side directly across the arm, or they run one above the other with the first letter of the name nearest the elbow.

Miss Edna C. Spaulding Is Winner of Contest

The surprise of the week was the advent into the puzzle arena of several small girls. Tucked snugly away from the lists of their elder sisters and brothers two or three solutions from the hands of the little women stayed successfully concealed until the judges got down to their work and revealed the contributions of the juvenile contestants.

So carefully were the lists written and so clever were the solutions that not a trace of juvenility remained to establish the identity of the small contestants. However, when the time came to look up the addresses of the winners the illuminating "aged twelve," which followed the name settled things and everybody had to reverse his opinion. This was promptly done and Miss Grace Schreiner, of 212 Q street northwest, was admitted to the circle of last week's prize winners. This is the second time Miss Schreiner has carried off a trophy and it behooves the boys and girls to look to their lists.

Miss Edna C. Spaulding, of 124 N street northwest, with twenty number correctly solved, was awarded the first prize, and Miss Virginia C. Gardner, of street northwest, with twenty numbers tallying exactly with Miss Mattingly's, came in for the second prize. Altogether every one has a right to feel gratified at the results, for some of the cleverest work so far contributed in the puzzle contests, came to the desk last week.

FRANCES CARROLL.

QUICK LUNCHES.

Lunch at a railroad station means, for some people, two pieces of half-raw dough, called bread; a sample of butter hidden beside a small scrap of partially cooked ham, that won't come out. And the description is not complete without the admission that it is "grabbed" and "bolted" while the clock hands jump from minute to minute. It doesn't sound nice, and the description ought to be enough to insure a well-developed case of indigestion.

CORRECT ANSWERS TO LAST WEEK'S PUZZLE

- 1—Moonlight.
- 2—Rocker.
- 3—Fans.
- 4—Rubber plant.
- 5—Mazezine.
- 6—Washington Times.
- 7—Hammock.
- 8—Nightbugs.
- 9—Fly.
- 10—More flies.
- 11—Chair.
- 12—Rug.
- 13—Pillows.
- 14—Cushion.

- 24—Small talk.
- 25—Cooing.
- 26—Kisses.
- 27—Irate parent.
- 28—Scene.

MISS MARTINA MATTINGLY,
Congress Heights, Washington, D. C.

Many Wives Like to Play Martyr Instead of Expressing Their Wants

Why do many wives put on the injured martyr air instead of telling their husbands just what they want or think? Why do many husbands work hard for their wives and families, but never think how the wife would appreciate an invitation to a theater, a little dinner at a restaurant, a fancy party, or some flowers brought home unasked? Why do many children resent anything their parents say, and look on them as bores, and long to be grown up so as to escape from them? Why do so many rich folks look on their poor relatives as being always on the lookout for favors, and so prevent the poor relatives from giving them little presents or being natural with them? Why do so many poor relatives look on their rich relatives as arrogant and

purse-proud, scarcely admitting any good qualities, and always adding or prefacing any account of the rich relatives' generosity or kindness with, "If I were as rich as he it would be my delight to do so and so." Instead of being appreciative of the kindnesses? Why do so many clerks look with envy on their employers, and rage over every correction or sharp word? Why do men laugh at women's lack of business ability, and yet sneer and rather look down on the women who shows she has some? Why do many persons behave more courteously and kindly to outsiders than they do to ones they really love best of all?

JAPAN FAN GAME IS HIGHLY EXCITING

Provide yourself with ordinary inexpensive Japanese fans and Japanese paper globes of various colors. These globes are six or seven inches in diameter. They come folded flat, but all the players have to do is to unfold them and inflate them through the tiny hole which will be found in one end.

Have a goal—make it of two poles six feet apart, with a top crosspiece at each end of your field. The field should be about the size of a tennis court. Have a smaller goal also in the center of the field.

Choose two captains and let them choose up their sides, the same number on each side. One from each side—two in all—play at a time, each standing in front of his own goal, and at a signal from the umpire advancing toward the center fan.

At the first signal the two captains toss their balls high in the air. It is up to the two players now to keep the balls from touching the ground and to guide them toward the opponent's goal, causing them to pass meanwhile either over or under the middle goal. The only means either one can employ is his fan.

Supposing either ball falls to the ground, the player is privileged to lift it up on his fan without touching it with his fingers. He may then play with his fan as he pleases, but he may not reach his desired goal.

HARD SAUCE.

A delicious hard sauce is made with a usual tablespoonful of butter creamed with a cupful of sugar and two tablespoonfuls of whipped cream beaten in at last. Some persons use the white of an egg, beating all together to a froth.

CONVENIENT LENGTH FOR EVENING DRESS

A good length for an evening dress is an inch on the floor across the front, and sides, and six to nine inches at the back.

A facing of flannel or broadcloth from six to ten inches deep is used in many of the dresses to give weight to the bottom of the skirt and make it cling around the feet. House dresses lie about an inch on the floor at the front and sides and from three to six inches at the back.

Many ultra smart women have their afternoon street dresses in this same length, but if you have to walk or use the cars, you will find that a shorter skirt—an inch or two from the ground—is far more comfortable and convenient.

TO REMOVE DENTS.

Amateur woodworkers are often troubled with dents on wood, which they are unable to remove. Take a piece of wet felt and place it on the dent. Press with a hot flat-iron and the dent will instantly disappear. This is good for all cases of dented wood.

Why dwell on the worry and woe of "bake duty"? Every housewife who ever baked is familiar with them.

DERENS' BREAD

Is it good, as pure and MORE wholesome than the best home-made loaf ever baked. The fact that it is more economical to buy than to bake is also in its favor. Order a trial loaf from your grocer's.

BERENS' BAKERY
415 First St. N. W.

The word "rye bread" will have a new meaning after tasting that baked by BERENS.

THE NEW
"A Loaf of BERENS' Please"

Rules for Guidance of Women Who Would Avoid All Wrinkles

Here are some suggestions for the woman who would avoid wrinkles:

Don't speak with all the muscles of the face in play. It is very charming and captivating to be deeply, deadily in earnest, but facial grimaces form creases which in time will become fixed.

Don't worry; but if worry you must, keep the forehead smooth and don't frown.

Don't wear tight shoes; they make a young face look drawn and wrinkled in a few hours.

Don't neglect the ten minutes' rest during the day, with the feet raised. It gives the whole body a great sense of repose and works wonders in smoothing out the lines of the face.

Don't let insomnia take the upper hand. By all means in your power, try to break up the habit. Sleeplessness is sometimes caused by unconscious hunger, and a cup of hot water or a biscuit will often induce sleep.

Don't go too long without food. Hunger gives a strained look to the face.

Unusually Active Trading In Markets of the District

Light receipts and firm, advancing prices promise to characterize the egg, butter, cheese, and poultry markets this week. Unusually active trading is anticipated for the reason that products have been advised to keep roads moving, demand giving no indication as yet of falling below supply.

Last week's trading on the market resulted in higher prices being placed on each of the four commodities named above. Eggs recorded the biggest advance. Butter went up a cent, while both cheese and poultry recorded substantial advances.

Concerning the outlook for this week, it is practically certain none of the commodities will sell at prices below those of last week. If anything, a general advance to 19 to 20 cent chicken market would occasion no surprise. Receipts of butter doubtless will continue decreasing, but dealers generally anticipate last week's prices being maintained. There is considerable speculation as to what the cheese market will do.

Calves and lambs experienced a slightly better market last week than the week before, and no material changes are looked for in the conditions underlying the market. Prices will be gauged almost entirely by quality, so that the best grades should move without difficulty.

Queries of Times Readers Answered

Canned Tomatoes.

Subscriber—Select firm ripe tomatoes, immerse in boiling water for a few minutes then remove the skins. Have ready a large kettle of boiling water. Into this put enough tomatoes to fill one to fill a quart jar. Cover and boil low them to remain about eight minutes. Pack into a hot jar, filling up the boiling water and seal at once. It is advisable always to use glass jars, the tomatoes will keep well and taste almost like fresh vegetables.

For Hat and Coat.

A Reader—I think you, as a young girl, could not do better than to have your black beaver hat simply draped with a large flat scarf of silk, relieved possibly by a cluster of quills. Silk astrakhan would be a very good selection for a long coat. Have it made loose fitting and have it cut on very simple lines, using pretty buttons as the only trimming. The material should be had at any of the downtown shops, I think, at least I saw it last season in several Washington shops. Cover and seal at once. It is advisable always to use glass jars, the tomatoes will keep well and taste almost like fresh vegetables.

Card Fortunes.

Mrs. W. C. F.—The following card fortunes have the stamp of "authority" from the hand of an expert at foretelling the future by means of the past-boards. Take an unbroken deck of cards, shuffle three times, cut three times, the while you formulate a good strong wish. Turn the cards, face up, one by one, saying as you proceed, "heart," "king," "queen," "jack," "heart," "king," "ten," "diamonds," and as your count falls on a card of the name or number of the card, and so continue until the entire deck is shuffled, repeated twice, and shuffling between the two shuffles. The cards put by comprise the fortune.

Take these cards and lay them out face down in six stacks until they are all disposed of. Now turn over the first stack, and whatever it contains is for yourself; the second stack is for "the house," the third stack concerns your wish, the fourth is what you expect, the fifth is what you get, and the sixth is what is in the future for you.

Beautify the Complexion IN TEN DAYS

Nadinola CREAM, the unequalled beautifier, is endorsed by thousands of women and moves freckles, pimples, liver-spots, tan, sallowness, etc., the worst case in 10 days, 50 cents and \$1.00, by leading druggists or mail.

PHONE OR MAIL ORDERS NOT CONSIDERED. A few pianos and graphophones, the better slightly shop-worn, at bargain prices.

EASY PAYMENT TERMS IF DESIRED J. P. Robertson, 1310 Seventh St. N.W. Open Evenings Until 9 o'clock.

TALL GIRLS SHOULD DRESS CAREFULLY

Generations of tall women, both stout and thin, have been taught to avoid perpendicular lines and stripes in the making and material of their gowns. It is true that parallel bands serve to detract from the height, but it should be remembered that they also add breadth to the figure, and make the tall women look huge.

This is the day of the tall woman, and she should not try to disguise her height. Instead, she should bend her efforts toward looking slender.

The semi-princess styles of today are accepted from the paintings and ancient statues of the Grecian women, who lived centuries ago, when women knew how to dress from a hygienic and artistic standpoint. Today we call it the "one-piece" dress, and never was there a modern fashion so becoming to tall women as this one.

Fluffy frills, ruffles and dounces and broad stripes or large figures in materials should be avoided, and only the simplest and least pronounced patterns and colors be worn by the statuesque woman.

If the hair must be worn on top of the head, low flat coils may be used, but if becoming, the hair should be parted and worn low.

Patience Necessary Virtue In Any Successful Mother

Nowhere is patience so essential as with children, little and big, and often it is the elder ones who require the most. Their faults have to be corrected, and they are so preserve and so careless, and so provoking that if the mother has not perfect control over her own temper, and patience has not perfected its work in her soul, she must be of all women the most miserable.

Absolute power is always liable to abuse, and while the children are young it is vested in the parents. It is too terribly easy for the strong to triumph over the weak, but the tenderness of love will enable most mothers and mothers to restrain their impatience.

Let a child who has been naughty or boisterous have time to consider before any punishment is given, and he will often say he is sorry, and will understand that, even if he has not done much harm, he has given pain and trouble to the kind parent who is the center of his solar system. But if a slap or shake immediately follows the naughtiness, it only excites a sort of blind anger.

If grown-up people would only cast

their minds back to their own childhood, and treat their own children as they remember they thought they ought to have been treated themselves, there would be less sorrow and grief in many families when the boys and girls grow up.

If sudden and relatively severe punishment is given for slight faults, or even a great scolding and just made, children are apt to become deceitful. Many children would confess the wrong-doing if they were not afraid.

Not ordinary, second-rate Pianos, but the most celebrated makes there are, at prices so extremely low that you'd scarcely think it possible. Think of the savings these reductions make possible—a hundred dollars on this piano, nearly two hundred on that. And you get exactly the same value you would pay full price for elsewhere.
